SKILLS

- **Languages:** Python, C, C++, JavaScript
- **Technologies:** HTML, CSS
- **Databases/Tools:** MySQL, VS Code, Git, GitHub, Figma, Draw.io
- **Soft Skills:** Problem solving, Team collaboration, Time management, Quick Learning

PROJECTS

Hangman Game | GitHub July 2026

- Developed an interactive command-line Hangman game in Python with randomized word selection and letter-by-letter guessing.
- Implemented a set-based guessed-letter tracking system to prevent duplicate guesses and improve input handling.
- Designed dynamic word-progress visualization that reveals correctly guessed letters while maintaining hidden characters.
- **Tech Stack:** Python

Stock Portfolio Tracker | GitHub July 2026

- Built a command-line application to calculate total investment based on selected stocks and their quantities..
- Applied **Python dictionaries, loops, and conditional statements** for stock management and calculations.
- Added **case-insensitive input handling and validation** to improve stock selection and user experience.
- **Tech Stack:** Python

Smart Vehicle-to-Traffic Signal Communication System| ECE May 2026

- Designed a smart traffic-safety system using ESP32, DHT22, LDR, laser and IR sensors to monitor weather, visibility and traffic density in real time.
- Integrated live traffic-signal states and timers with a smartphone-based web application for real-time driver awareness.
- Utilized GPS-based signal-distance estimation to provide upcoming signal information and improve driver awareness.
- **Tech Stack:** ESP32, C/C++, GPS, Web Applications.

CERTIFICATES

- | | |
|--|------------|
| • Introduction to Prompt Engineering Microsoft | Feb 2026 |
| • Introduction to AI Infosys Springboard | March 2026 |
| • Introduction to Python Infosys Springboard | Feb 2024 |

ACHIEVEMENTS

- Participated in a college-level hackathon, gaining hands-on experience in collaborative problem-solving.
- Completed multiple hands-on programming projects across Python, C/C++ and embedded systems.
- Presented an ECE project involving ESP32, sensors, GPS and a web-based interface as part of academic project work.

EDUCATION

- | | |
|--|----------------------------|
| Lovely Professional University | Phagwara, Punjab |
| • <i>Bachelor of Technology - Computer Science and Engineering; CGPA: 8.69</i> | <i>Aug 2025 - Present</i> |
| St. Mary's Convent Sr. Sec. School | Udaipur, Rajasthan |
| • <i>Higher Secondary Education; Percentage: 83.9%</i> | <i>May 2024 - Mar 2025</i> |
| St. Mary's Convent Sr. Sec. School | Udaipur, Rajasthan |
| • <i>Secondary Education; Percentage: 83.2%</i> | <i>Jun 2023 - Mar 2024</i> |
